

Please do not allow the Consumer Bankers Association to weaken Wisconsin's Do Not Call List law. My right to privacy in my own home is every bit as important as their right to free speech. I would prefer that no unsolicited calls come into my home; however, I realize that is not practical. But I wish to be protected by the strongest law that can be made on this issue. In this case, Wisconsin's law is stronger than the federal law. Do not weaken our law and expose my family to more garbage phone calls than we already are being subjected to. Thank you.
